

DESIGN OF BUILDING UP GÖDÖLLŐ CITY CENTRE

**Client:**

Mayor's Office of Gödöllő

Features:

Basement + ground floor + 2 floors + attic

Covered area: 1 500 m²

Overall floor area: 5 000 m²

Time of design: 1994

Services:

- Architecture
- Road
- Garden
- Traffic

Only the post office was completed in the central area of Gödöllő, which area had been left vacant for being built up at some later date. The city centre was designed by UVATERV arranging further constructions as a continuation of the post office at a pattern of quadrangle blocks.

The facilities include an underground garage for parking 150 cars, commercial, cultural and service functions at the ground floor, and offices on the upper floors and in the attic. The features of the design are matched to the architectural image of the inner city of Gödöllő.
